

Student and Parent/Guardian Consent form

Dear Student

Thank you for entering this exciting competition! Please read the [Student Guide](#) before completing this consent form so that you understand what the competition involves.

Please complete the Student part of the consent form below.

Dear Parent/Guardian

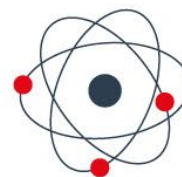

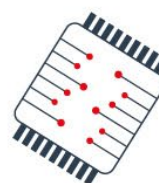

Parental/Guardian consent is needed for your young person to enter the 'What Lights Up Your Love of Physics?' competition. This involves creating a short video, within a team of up to 3 students from their school/college, or as an individual. The competition entry will be submitted by the teacher at the school/college representing the team/individual.

The top ten shortlisted teams will be invited to attend the prize winner's event at King's College, University of Cambridge on 1 and 2 April 2026, where the overall winner will be announced. At least one teacher from their school/college will accompany the team on this overnight trip, where they will also have the opportunity to participate in various physics enrichment activities. Amazon vouchers will be awarded as prizes to all the shortlisted teams who attend the event at Cambridge, and their school will receive £500 to spend on physics equipment.

The overall winning team's school/college will be given the opportunity to arrange a trip for the winning team to CERN, Switzerland, home of the Large Hadron Collider. The trip is expected to take place at a convenient time before the end of August 2026 and a teacher from the school/college will accompany them.

Videos from the ten shortlisted teams may be used Physics Partners. This use may include, but is not limited to, sharing on the college and Physics Partners websites and social media channels, publishing on YouTube, re-editing of material to appropriate formats, and creation of classroom resources around the videos. The students are asked not to provide their full names in the videos, and these will never be published alongside the videos.

See www.physicspartners.com/competition for full details of the competition.

To be completed by the student:

First name:

Surname:

Name of school/college

Please tick the following statements:

I agree to taking part in the 'What Lights Up Your Love of Physics?' competition.

I agree to the submitted video being shared by Physics Partners for marketing purposes.

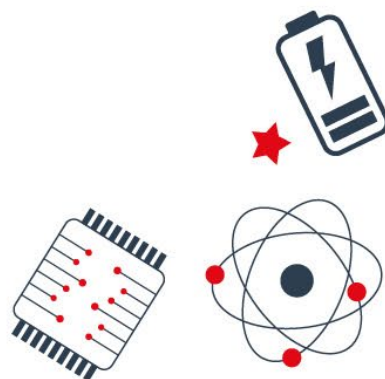

I give permission for my personal data to be shared by my teacher with King's College, Cambridge if my team is shortlisted.

I agree to Physics Partners keeping a record of this form solely for the purpose of the competition.

Signature:

Date:

WHAT LIGHTS UP YOUR LOVE OF PHYSICS?

To be completed by the parent/guardian:

First name:

Surname:

Relationship to young person:

All questions on the consent form must be completed and signed by the parent/guardian or carer.

Parents/Guardians must ensure they notify the school/college of any changes to the information given on the form.

Please tick the following statements:

I agree to my young person taking part in the stated activity.

I agree to the submitted video being shared by Physics Partners for marketing purposes.

I am aware that a prize for shortlisted teams is a trip to the University of Cambridge and am, in principle, willing for my child to attend.

If my young person's team is shortlisted, I give permission for personal data about them to be shared by the teacher with Physics Partners and King's College, to enable them to deliver the event.

I agree to Physics Partners and King's College, Cambridge, keeping a record of this form solely for the purpose of the competition.
