

South East Festival of Physics

SATURDAY 7th OCTOBER 2023, 9am-3.30pm

Hove Park Upper School, BN3 7BN

Physics Professional Learning for secondary science teachers and science technicians

Physics Partners are hosting a Festival of Physics on Saturday 7th October 2023 at Hove Park School, funded by the Ogden Trust, with support from STEM Learning.

There are 12 workshops to choose from, designed for secondary science teachers (KS3, KS4 & KS5) and science technicians. The day will include time for networking, browsing exhibitors

Alongside Physics Partners trainers, we are joined by trainers from STEM Learning, the Royal Academy of Engineering, and Isaac Physics. There are 12 brilliant workshops to choose from, including GCSE Required Practicals, a 'Make and Take' Cloud Chamber and 'Engineering Solutions for a Brighter Future'. Sessions aim to increase subject knowledge, build confidence, and improve pedagogy.

We are delighted to be welcoming Andrew Hanson MBE as the keynote speaker. At the end of his lively talk, you will understand what measurement is and how it underpins pretty much every human endeavour.

Thanks to funding from the Ogden Trust, this event is free of charge to attendees. Please register for your place on this event by visiting: physicspartners.com/south-east-festival-2023/
