'Sustainable Energy' Physics Study Day 2024

Thursday 19th September

King Edward's School

Birmingham, B15 2UA

Schools in Birmingham and the surrounding area are invited to a Physics Study Day for Year 11 and 12 students. This year's theme, 'Sustainable Energy', promises to be both inspiring and informative for your students. Hear from passionate PhD students about the latest advancements in sustainable energy and learn from local industry experts about the diverse career paths using physics skills, including work placements, apprenticeships and graduate schemes.

Programme:

Speaker: Professor Alessandro Mottura, University of Birmingham

Title: The role of materials in the energy sector

Additional speaker TBC

Lunch and refreshments

Panel discussion focusing on careers with input from local industry including Aurigo and Total Flow.

Venue: King Edward's School, Edgbaston Park Road, Birmingham, B15 2UA

Date & Time: Thursday 19th September, 10.00am - 2.00pm

Space is limited to approximately 11 schools (15 students ~ minibus capacity) from year 11 or 12. The day is fully funded and includes lunch and refreshments.

Please register promptly to secure your school's place.
